Subject: Letter of Recommendation for Ms. Sanskriti Bajaj

Ms. Sanskriti Bajaj completed a 6-week internship with Quantech Capital (OpenQ.in). OpenQ by Quantech Capital focuses on quantitative portfolio analytics and optimization.

She worked under my guidance and during her internship she completed the following projects and presentations -

- Macro Factor Investing Model in Python
- Working paper on Bitcoin for developing a cryptocurrency portfolio

During her internship Sanskriti demonstrated her curiosity to learn and showcased her problem-solving skills. She is a quick learner and has shown the ability to handle large volumes of financial and economic data. Her understanding of macroeconomic concepts and Python programming enabled her to recreate factor investing strategies deployed by world's leading asset managers. I particularly appreciate Sanskriti's persistence as she tried to implement a new approach every time she hit a roadblock during her project.

It is my pleasure to endorse Sanskriti Bajaj for employment in your esteemed organisation. As a dedicated and knowledgeable employee, I am confident that she will be a beneficial addition to your organization.

If you need more information or specific examples, please do not hesitate to contact me at +91 9820249624 or by email at sujit@quantechcapital.in

Yours sincerely,

Sujit Modi
